SPECIFICATIONS

eye size:
56 mm

temple length:
119 mm

bridge width:
24 mm

lens height:
30 mm

weight:
20 grams
(without packaging)

KEY FEATURES

- Adjustible silicone nose pads provide a customizable fit;
- Gently curved temples provide necessary retention to keep eyewear in place;
- Soft-touch treatment over flexible thermoplastic temples increases comfort at all contact points;
- Rimless frame design minimizes distraction in the peripheral field of view and decreases the overall eyewear weight.
